Remote Work Policy

1. Hybrid Remote Work - Eligibility

Acme Logistics supports hybrid working of up to 3 days per week from home for eligible employees.

An employee is eligible for hybrid remote work only if ALL of the following conditions are met:

(1) The employee has completed the probation period, which is 6 months of service.

(2) The employee's most recent performance rating is 3 or higher on the 5-point scale.

(3) The employee's role is not designated as on-site essential. The on-site essential roles are warehouse operations, fleet maintenance and dispatch.

(4) The employee's line manager has approved the request.

2. Fully Remote Work

Fully remote work (5 days per week) is an exception and requires director approval.

To be considered for fully remote work, an employee must have at least 2 years of service, a most recent performance rating of 4 or higher, and work in the Technology, Finance or Human Resources department.

Fully remote employees must attend the office for the quarterly planning day.

Approved remote workers (hybrid or fully remote) receive a one-time home office equipment stipend of $500.

3. How to Request Remote Work

Submit the Remote Work Request form in the HR Portal, selecting either hybrid or fully remote.

Your line manager reviews the request within 10 business days. Fully remote requests are then forwarded to your director.

Approved arrangements are reviewed every 6 months and may be withdrawn if performance falls below a rating of 3 or business needs change.
